**IOWA PUBLIC TELEVISION BOARD MEETING**

**Board Meeting.** The Iowa Public Broadcasting Board met at the offices of IPTV in Johnston, Iowa, on February 14, 2017.

**Financial Reports.** The financial reports from the quarter ending December 31, 2016, were presented. These reports do not yet reflect the State funding deappropriation of \$200,000. IPTV is dealing with the deappropriation by not filling two vacant positions and continuing to review and lower costs of advertising, education services, and out-of-state travel.

**Other Updates.** The Board also heard updates on various programs and projects that are ongoing, including:

- Continuing work on equipment updates and replacements through capital funds.
- Moving toward being able to livestream 24 hours a day.
- Results of the FCC's wireless spectrum auction.
- New upcoming programming, including web-based series that will be integrated into spare time between shows during regular programming.
- Shifting the March pledge programming to cover two noncontinuous weekends and a week later in the month.
- Successful NASA programming collaboration.

The next meeting will be held Tuesday, April 11, 2017, at the IPTV headquarters in Johnston, Iowa.
